## States' Agritourism Statutes

### STATE OF HAWAI'I

*Current through the 2007 third special session of the Hawaii Legislature.*

#### **§ 205-2. Districting and classification of lands**

(a) There shall be four major land use districts in which all lands in the State shall be placed: urban, rural, agricultural, and conservation. The land use commission shall group contiguous land areas suitable for inclusion in one of these four major districts. The commission shall set standards for determining the boundaries of each district, provided that:

(1) In the establishment of boundaries of urban districts those lands that are now in urban use and a sufficient reserve area for foreseeable urban growth shall be included;

(2) In the establishment of boundaries for rural districts, areas of land composed primarily of small farms mixed with very low density residential lots, which may be shown by a minimum density of not more than one house per one-half acre and a minimum lot size of not less than one-half acre shall be included, except as herein provided;

(3) In the establishment of the boundaries of agricultural districts the greatest possible protection shall be given to those lands with a high capacity for intensive cultivation; and

(4) In the establishment of the boundaries of conservation districts, the "forest and water reserve zones" provided in Act 234, section 2, Session Laws of Hawaii 1957, are renamed "conservation districts" and, effective as of July 11, 1961, the boundaries of the forest and water reserve zones theretofore established pursuant to Act 234, section 2, Session Laws of Hawaii 1957, shall constitute the boundaries of the conservation districts; provided that thereafter the power to determine the boundaries of the conservation districts shall be in the commission.

In establishing the boundaries of the districts in each county, the commission shall give consideration to the master plan or general plan of the county.

(b) Urban districts shall include activities or uses as provided by ordinances or regulations of the county within which the urban district is situated.

(c) Rural districts shall include activities or uses as characterized by low density residential lots of not more than one dwelling house per one-half acre, except as provided by county ordinance pursuant to section 46-4(c), in areas where "city-like" concentration of people, structures, streets, and urban level of services are absent, and where small farms are intermixed with low density residential lots except that within a subdivision, as defined in

section 484--1, the commission for good cause may allow one lot of less than one-half acre, but not less than 18,500 square feet, or an equivalent residential density, within a rural subdivision and permit the construction of one dwelling on such lot, provided that all other dwellings in the subdivision shall have a minimum lot size of one-half acre or 21,780 square feet. Such petition for variance may be processed under the special permit procedure. These districts may include contiguous areas which are not suited to low density residential lots or small farms by reason of topography, soils, and other related characteristics. Rural districts shall also include golf courses, golf driving ranges, and golf-related facilities.

(d) Agricultural districts shall include:

- (1) Activities or uses as characterized by the cultivation of crops, crops for bioenergy, orchards, forage, and forestry;
- (2) Farming activities or uses related to animal husbandry, and game and fish propagation;
- (3) Aquaculture, which means the production of aquatic plant and animal life within ponds and other bodies of water;
- (4) Wind generated energy production for public, private, and commercial use;
- (5) Biofuel production as described in section 205-4.5(a)(15) for public, private, and commercial use;
- (6) Bona fide agricultural services and uses that support the agricultural activities of the fee or leasehold owner of the property and accessory to any of the above activities, whether or not conducted on the same premises as the agricultural activities to which they are accessory, including but not limited to farm dwellings as defined in section 205-4.5(a)(4), employee housing, farm buildings, mills, storage facilities, processing facilities, vehicle and equipment storage areas, roadside stands for the sale of products grown on the premises, and plantation community subdivisions as defined in section 205- 4.5(a)(12);
- (7) Wind machines and wind farms;
- (8) Small-scale meteorological, air quality, noise, and other scientific and environmental data collection and monitoring facilities occupying less than one-half acre of land; provided that these facilities shall not be used as or equipped for use as living quarters or dwellings;
- (9) Agricultural parks;
- (10) **Agricultural tourism** conducted on a working farm, or a farming operation as defined in section 165-2, for the enjoyment, education, or involvement of visitors; provided that the **agricultural tourism** activity is accessory and secondary to the principal agricultural use and does not interfere with surrounding farm operations; and provided further that this paragraph shall apply only to a county that has adopted ordinances regulating **agricultural tourism** under section 205-5; and
- (11) Open area recreational facilities.

Agricultural districts shall not include golf courses and golf driving ranges, except as provided in section 205-4.5(d). Agricultural districts include areas that are not used for, or that are not suited to, agricultural and ancillary activities by reason of topography, soils, and other related characteristics.

(e) Conservation districts shall include areas necessary for protecting watersheds and water sources; preserving scenic and historic areas; providing park lands, wilderness, and beach reserves; conserving indigenous or endemic plants, fish, and wildlife, including those which are threatened or endangered; preventing floods and soil erosion; forestry; open space areas whose existing openness, natural condition, or present state of use, if retained, would enhance the present or potential value of abutting or surrounding communities, or would maintain or enhance the conservation of natural or scenic resources; areas of value for recreational purposes; other related activities; and other permitted uses not detrimental to a multiple use conservation concept.

#### **205-4.5. Permissible uses within the agricultural districts**

(a) Within the agricultural district, all lands with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class A or B shall be restricted to the following permitted uses:

- (1) Cultivation of crops, including but not limited to crops for bioenergy, flowers, vegetables, foliage, fruits, forage, and timber;
- (2) Game and fish propagation;
- (3) Raising of livestock, including but not limited to poultry, bees, fish, or other animal or aquatic life that are propagated for economic or personal use;
- (4) Farm dwellings, employee housing, farm buildings, or activities or uses related to farming and animal husbandry. "Farm dwelling", as used in this paragraph, means a single-family dwelling located on and used in connection with a farm, including clusters of single-family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling;
- (5) Public institutions and buildings that are necessary for agricultural practices;
- (6) Public and private open area types of recreational uses, including day camps, picnic grounds, parks, and riding stables, but not including dragstrips, airports, drive-in theaters, golf courses, golf driving ranges, country clubs, and overnight camps;
- (7) Public, private, and quasi-public utility lines and roadways, transformer stations, communications equipment buildings, solid waste transfer stations, major water storage tanks, and appurtenant small buildings such as booster pumping stations, but not including offices or yards for equipment, material, vehicle storage, repair or maintenance, treatment plants, corporation yards, or other similar structures;
- (8) Retention, restoration, rehabilitation, or improvement of buildings or sites of historic or scenic interest;
- (9) Roadside stands for the sale of agricultural products grown on the premises;

(10) Buildings and uses, including but not limited to mills, storage, and processing facilities, maintenance facilities, and vehicle and equipment storage areas that are normally considered directly accessory to the above mentioned uses and are permitted under section 205-2(d);

(11) Agricultural parks;

(12) Plantation community subdivisions, which as used in this paragraph means a subdivision or cluster of employee housing, community buildings, and acreage established on land currently or formerly owned, leased, or operated by a sugar or pineapple plantation and in residential use by employees or former employees of the plantation; provided that the employees or former employees shall have a property interest in the land;

(13) **Agricultural tourism** conducted on a working farm, or a farming operation as defined in section 165-2, for the enjoyment, education, or involvement of visitors; provided that the **agricultural tourism** activity is accessory and secondary to the principal agricultural use and does not interfere with surrounding farm operations; and provided further that this paragraph shall apply only to a county that has adopted ordinances regulating **agricultural tourism** under section 205-5;

[(14)] Wind energy facilities, including the appurtenances associated with the production and transmission of wind generated energy; provided that the wind energy facilities and appurtenances are compatible with agriculture uses and cause minimal adverse impact on agricultural land;

(15) Biofuel processing facilities, including the appurtenances associated with the production and refining of biofuels that is normally considered directly accessory and secondary to the growing of the energy feedstock; provided that biofuels processing facilities and appurtenances do not adversely impact agricultural land and other agricultural uses in the vicinity.

For the purposes of this paragraph:

"Appurtenances" means operational infrastructure of the appropriate type and scale for economic commercial storage and distribution, and other similar handling of feedstock, fuels, and other products of biofuels processing facilities.

"Biofuel processing facility" means a facility that produces liquid or gaseous fuels from organic sources such as biomass crops, agricultural residues, and oil crops, including palm, canola, soybean, and waste cooking oils; grease; food wastes; and animal residues and wastes that can be used to generate energy[; or]

[(16)] Construction and operation of wireless communication antennas; provided that, for the purposes of this paragraph, "wireless communication antenna" means communications equipment that is either freestanding or placed upon or attached to an already existing structure and that transmits and receives electromagnetic radio signals used in the provision of all types of wireless communications services; provided further that nothing in this paragraph shall be construed to permit the construction of any new structure that is not deemed a permitted use under this subsection.

- (b) Uses not expressly permitted in subsection (a) shall be prohibited, except the uses permitted as provided in sections 205-6 and 205-8, and construction of single-family dwellings on lots existing before June 4, 1976. Any other law to the contrary notwithstanding, no subdivision of land within the agricultural district with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class A or B shall be approved by a county unless those A and B lands within the subdivision are made subject to the restriction on uses as prescribed in this section and to the condition that the uses shall be primarily in pursuit of an agricultural activity.

Any deed, lease, agreement of sale, mortgage, or other instrument of conveyance covering any land within the agricultural subdivision shall expressly contain the restriction on uses and the condition, as prescribed in this section that these restrictions and conditions shall be encumbrances running with the land until such time that the land is reclassified to a land use district other than agricultural district.

If the foregoing requirement of encumbrances running with the land jeopardizes the owner or lessee in obtaining mortgage financing from any of the mortgage lending agencies set forth in the following paragraph, and the requirement is the sole reason for failure to obtain mortgage financing, then the requirement of encumbrances shall, insofar as such mortgage financing is jeopardized, be conditionally waived by the appropriate county enforcement officer; provided that the conditional waiver shall become effective only in the event that the property is subjected to foreclosure proceedings by the mortgage lender.

The mortgage lending agencies referred to in the preceding paragraph are the Federal Housing Administration, Federal National Mortgage Association, Veterans Administration, Small Business Administration, United States Department of Agriculture, Federal Land Bank of Berkeley, Federal Intermediate Credit Bank of Berkeley, Berkeley Bank for Cooperatives, and any other federal, state, or private mortgage lending agency qualified to do business in Hawaii, and their respective successors and assigns.

(c) Within the agricultural district, all lands with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class C, D, E, or U shall be restricted to the uses permitted for agricultural districts as set forth in section 205-5(b).

(d) Notwithstanding any other provision of this chapter to the contrary, golf courses and golf driving ranges approved by a county before July 1, 2005, for development within the agricultural district shall be permitted uses within the agricultural district.

(e) Notwithstanding any other provision of this chapter to the contrary, plantation community subdivisions as defined in this section shall be permitted uses within the agricultural district, and section 205-8 shall not apply.

[(f)] Notwithstanding any other law to the contrary, agricultural lands may be subdivided and leased for the agricultural uses or activities permitted in subsection (a); provided that:

(1) The principal use of the leased land is agriculture;

(2) No permanent or temporary dwellings or farm dwellings, including trailers and campers, are constructed on the leased area. This restriction shall not prohibit the construction of storage sheds, equipment sheds, or other structures appropriate to the agricultural activity carried on within the lot; and

(3) The lease term for a subdivided lot shall be for at least as long as the greater of:

(A) The minimum real property tax agricultural dedication period of the county in which the subdivided lot is located; or

(B) Five years.

Lots created and leased pursuant to this section shall be legal lots of record for mortgage lending purposes and shall be exempt from county subdivision standards.

#### § 205-5. Zoning

(a) Except, as herein provided, the powers granted to counties under section 46-4 shall govern the zoning within the districts, other than in conservation districts. Conservation districts shall be governed by the department of land and natural resources pursuant to chapter 183C.

(b) Within agricultural districts, uses compatible to the activities described in section 205-2 as determined by the commission shall be permitted; provided that accessory agricultural uses and services described in sections 205-2 and 205-4.5 may be further defined by each county by zoning ordinance. Each county shall adopt ordinances setting forth procedures and requirements, including provisions for enforcement, penalties, and administrative oversight, for the review and permitting of **agricultural tourism** uses and activities as an accessory use on a working farm, or farming operation as defined in section 165-2; provided that **agricultural tourism** activities shall not be permissible in the absence of a bona fide farming operation. Ordinances shall include but not be limited to:

(1) Requirements for access to a farm, including road width, road surface, and parking;

(2) Requirements and restrictions for accessory facilities connected with the farming operation, including gift shops and restaurants; provided that overnight accommodations shall not be permitted;

(3) Activities that may be offered by the farming operation for visitors;

(4) Days and hours of operation; and

(5) Automatic termination of the accessory use upon the cessation of the farming operation.

Each county may require an environmental assessment under chapter 343 as a condition to any **agricultural tourism** use and activity. Other uses may be allowed by special permits issued pursuant to this chapter. The minimum lot size in agricultural districts shall be determined by each county by zoning ordinance, subdivision ordinance, or other lawful means; provided that the minimum lot size for any agricultural use shall not be less than one acre, except as provided herein. If the county finds that unreasonable economic hardship to the owner or lessee of land cannot otherwise be prevented or where land utilization is improved, the county may allow lot sizes of less than the minimum lot size as specified by law for lots created by a consolidation of existing lots within an agricultural district and the resubdivision thereof; provided that the consolidation and resubdivision do not result in an increase in the number of lots over the number existing prior to consolidation; and provided further that in no event shall a lot which is equal to or exceeds the minimum lot size of one acre be less than that minimum after the consolidation and resubdivision action. The county may also allow lot sizes of less than

the minimum lot size as specified by law for lots created or used for plantation community subdivisions as defined in section 205-4.5(a)(12), for public, private, and quasi-public utility purposes, and for lots resulting from the subdivision of abandoned roadways and railroad easements.

(c) Unless authorized by special permit issued pursuant to this chapter, only the following uses shall be permitted within rural districts:

- (1) Low density residential uses;
- (2) Agricultural uses;
- (3) Golf courses, golf driving ranges, and golf-related facilities; and
- (4) Public, quasi-public, and public utility facilities.

In addition, the minimum lot size for any low density residential use shall be one-half acre and there shall be but one dwelling house per one-half acre, except as provided for in section 205-2.
