Climate Change Statutory Citations

STATE OF NORTH DAKOTA

This compilation of state statutory citations focuses predominantly on climate change laws in effect January 1, 1970 through December 31, 2007. In some instances, regulations have been included in the compilation due to their significance. This compilation is intended to serve as a researcher-friendly inventory of state laws by providing the formal title of relevant legislation, the standard legal citation for each statute and a brief description of the law. Some statutes and regulations listed do not specifically relate to climate change, but are included because of their complementary relationship to the evolution of climate change law in the state.

Title	Citation	Description
Carbon sequestration and storage projects – priority (2009)	N.D. CENT. CODE § 38-08-24	State approved carbon sequestration and storage projects have priority.
25x'25 Initiative (2007)	N.D. CENT. CODE § 17-01-01	By 2025, 25% of energy will be produced domestically. Part of energy that can be produced is through carbon sequestration.
