Biofuels Statutory Citations

STATE OF ALASKA

This compilation of state statutory citations focuses predominantly on biofuels laws in effect January 1, 1970 through December 31, 2013. It is intended to serve as a researcher-friendly inventory of state laws by providing the formal title of relevant legislation, the standard legal citation for each statute, the applicability of the statute (ethanol, biodiesel, or both), and a brief description of the law. Some statutes and regulations listed do not specifically relate to biofuels, but are included because of their complementary relationship to the evolution of biofuels law in the state.

<u>Title</u>	<u>Citation</u>	<u>Applicability</u>	<u>Description</u>
Community and Public Transportation Advisory Board-Powers (2012)	ALASKA STAT. § 44.42.095(F)	Both	Requires the Alaska Community and Public Transportation board to evaluate the feasibility of use of alternative fuels in public transportation. This currently has a sunset date of December 31, 2016.
State Energy Policy (2010)	ALASKA STAT. § 44.99.115	Both	The state's official declaration of energy policy and a dedication to the development of renewable and alternative energy sources.
Renewable Energy Grant Fund and Recommendation Program (2008)	ALASKA STAT. § 42.45.045	Both	Established the renewable energy grant fund to finance energy projects in Alaska. Certain eligibility requirements must be met in order for a project to qualify. The program currently has a sunset date of June 30, 2023.
Dept of Transportation-Duties and Powers (2005)	ALASKA STAT. § 44.42.020 (A)(11)	Both	The state Department of Transportation (DOT) is required to consider using alternative fuels in state vehicles and equipment. It allows the DOT to participate in joint ventures with public or private partners to foster the availability of alternative fuels for all consumers of automotive fuel.

Motor Fuel Tax (1997)	<u>ALASKA STAT. § 43.40.010 (A)(4)(A)</u>	Ethanol	In certain geographic areas and during months in which fuel containing ethanol is required to be sold, transferred, or used to attain air quality standards, the tax rate on fuel containing at least 10% ethanol by volume is reduced by \$0.06 per gallon.
